Other claim test

8.2* Please set out the background and details of your claim in the space below.

The details of your claim should include **the date(s) when the event(s) you are complaining about happened**. Please use the blank sheet at the end of the form if needed.

This claim is under the TUPE Regulations 2006, specifically Regulations 13 and 15.

On 4 November 2025 I was informed that the overnight service I worked on for Vestra Homecare Ltd would transfer to Comfort Call (Sunderland) Ltd on 15 December 2025. I had worked an established shift pattern of around 8:30pm to 3:00am for nearly two years, which was consistent and relied upon due to childcare, health and university commitments.

On 13 November 2025 I received a letter from Vestra setting out proposed measures from Comfort Call. This included administrative changes such as pay frequency, uniform, policies and systems, but did not explain the practical impact on my role or how the overnight service would operate in reality.

At this stage, Comfort Call had not contacted me directly. I had to source contact details myself and repeatedly chase for information. Responses were delayed, incomplete and at times inconsistent. I was also given written reassurance prior to consultation that my existing working hours would remain unchanged.

An initial meeting with Comfort Call representatives was unstructured and did not provide clear answers to key questions about working arrangements. I was advised that further information would be provided, however this did not happen.

A formal consultation meeting did not take place until 10 December 2025, only five days before the transfer date. During this meeting it became clear for the first time that the overnight service required staff to work between approximately 10:00pm and 7:00am, and that any role with Comfort Call would need to align with that structure.

This was a significant change in practical terms and was incompatible with my established working pattern and personal circumstances. This information had not been clearly set out in writing beforehand and contradicted earlier communication.

I was given very limited time to consider this before the transfer date, with key details still unclear and HR unavailable for part of this short period. The process did not provide a genuine or meaningful opportunity to understand or influence the proposed arrangements in advance of the transfer.

As a result of the lack of clear, consistent and timely information, I felt I had no real option but to object to the transfer and remain with Vestra. Comfort Call could not confirm if I would be given work that week or ongoing and I could not afford any lack of work.

9 What do you want if your claim is successful?

9.1 Please tick the relevant box(es) to say what you want if your claim is successful:

- ☒ If claiming unfair dismissal, to get your old job back and compensation (reinstatement)
- ☒ If claiming unfair dismissal, to get another job with the same employer or associated employer and compensation (re-engagement)
- ☒ Compensation only
- ☒ If claiming discrimination, a recommendation (see Guidance).

9.2 What compensation or remedy are you seeking?

If you are claiming financial compensation please give as much detail as you can about how much you are claiming and how you have calculated this sum. (Please note any figure stated below will be viewed as helpful information but it will not restrict what you can claim and you will be permitted to revise the sum claimed later. See the Guidance for further information about how you can calculate compensation). If you are seeking any other remedy from the Tribunal which you have not already identified please also state this below.
